Summary

With 13 years of experience in the Insurance domain, I am a dedicated IT professional with a proven track record in project and product management. My expertise lies in leading digital initiatives and ensuring seamless execution and delivery of high-impact digital applications.

Core Competencies:

- End-to-end management of software development projects, encompassing enhancements, production support, and customer requirement analysis to achieve business goals.
- Strong ability to align project objectives with organizational strategies, collaborating effectively with top management to drive success.
- Adept at handling multiple projects concurrently, with a focus on meticulous planning, resource optimization, and on-time delivery.
